INTRODUCTION

The Mahindra Group led by its parent company, Mahindra & Mahindra Limited (M&M) which was incorporated in 1945 and which is the flagship Company of the Mahindra Group has now grown into a vastly diversified industrial house with an unparalleled reputation for the trust and confidence built around its products and services. Over the years, the Mahindra Group has transformed itself into a group that caters to the Indian and Overseas markets with a presence in vehicles, farm equipment, information technology, trade and finance related services, automotive components, real estate, leisure and infrastructure development.

The past decade has seen several exciting changes in India's economic thinking. The liberalized business and legal environment, privatization of the public sector, the globalization of the economy and the resulting freedom and challenges have resulted in a dramatic growth in business and business opportunities, and in the way business is conducted. In this environment, it is imperative to maintain the highest standards of corporate conduct and business principles; we should be concerned not just with maximizing profits and shareholder value, but be equally conscious of responsibilities to each of the stakeholders – employees, business associates and partners, financiers, society and the State.

In its pursuit towards this goal, Mahindra Group (M&M Group), has always laid emphasis on practices that reaffirm the fundamentals of effective governance; practices that maintain a balance between individual aspirations and corporate goals; practices that underline our core values; and, above all, practices that would result in delivering excellent products and services whilst, at the same time, striving to make the world a better place.

M&M Group recognizes that there are many aspects of Corporate Governance, each as important as the other. Ensuring an adequate return to shareholders is one of them. Being transparent in the conduct of business affairs and maintaining the trust and confidence of stakeholders is another facet of Corporate Governance. Corporate Governance is also concerned with the empowerment of employees and the ethics, values and morals of a company and its employees. Developing capabilities, identifying opportunities and integrating Corporate Social Responsibility with operations is yet another area that adds to value creation..... the list could go on. It is for us to ensure that all these are carefully woven together to produce a tapestry of myriad hues that symbolizes strong business relationships, shareholder trust, employee loyalty, respect in the community and excellence in all that we do.

This document is a reminder to each of us of the underlying principles governing the conduct of our businesses. These are, in a manner of speaking, a reaffirmation of the same principles upon which the founding fathers of the Mahindra companies built the edifice that we are all so proud of. It must, however, be borne in mind that this can neither be considered a panacea for all situations, nor an answer to every question.

We believe that adherence to this Code will be yet another journey of a thousand miles that has begun with this one step.

THE MAHINDRA GOVERNANCE POLICIES

Good corporate governance begins with a company's own internal practices and policies. While Corporate Governance issues are common across organizations, each company requires governance principles that are unique in their approach.

The principles that will guide our actions and the manner of conducting our businesses will be articulated in the sections that follow. These flow from our commitment to be a moving force in the nation's progress without in any way compromising our core values and our unswerving attachment to business ethics. These principles focus on issues that are considered to be significantly important to the Governance process as we see it.

The Board of Directors of M&M Group companies has a Corporate Governance Code on lines of M&M that would oversee the implementation of these policies and its compliance. It is also the responsibility of the Compliance Officer appointed in terms of this Code to review the efficacy of these policies and suggest amendments to make them responsive to the changing times.

For this initiative to be successful, the guiding principles should be clearly understood and put into practice at every level within the Company. This Code should be adhered to in letter and in spirit. The application of these principles would be governed by internally designed procedures that are unambiguous and clearly understood.

Good governance is, ultimately, the sine qua non for continued growth and prosperity.
